

Mr. Peter Sprang
Technical Coordinator
IRRI and SRP
Philippines

Mr. Peter Sprang is the technical coordinator of the International Rice Research Institute and Sustainable Rice Platform (SRP). In his role, he facilitates the standard setting and revision of SRP, Forest Stewardship Council (FRC) and Sustainable Agriculture Network (SAN), as well as provides training in standards implementation. Mr. Peter has 18 years of work experience with a focus on South East Asia (SEA). Apart from his experience in South and East Asia, he had experience working on projects for North and South America, Africa, Australia, and Europe. Prior to joining IRRI and SRP, Mr. Peter was in the regional role at VECO Indonesia, Asia Pacific Consulting solutions and Rainforest Alliance for consultancies on the environment, forestry, and agriculture, as well as building up and managing a team in SEA on Sustainable Agriculture. Apart from that, he was the lead auditor, trainer and technical advisor for NEPCon and SmartWood Program. Mr. Peter received his Dipl. Ing. Forestry in Albert-Ludwigs Universität Freiburg and University of Edinburgh.
